1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Roberts '767. Roberts '76 discloses the claimed invention, including the first air stream PC at a velocity of at least 200 fpm and the second air stream TC at a velocity of at least 300 fpm. Thus, the second discharge velocity is at least 1.4 times greater than the first discharge velocity.

3. Applicant's arguments filed June 28, 2005 have been fully considered but they are not persuasive. Applicant's remarks regarding the velocity gradients over the respective air curtains of Roberts '767 have been noted. However, the claims are too broad and thus are readable on Roberts '767. For example, claim 1 does not recite that the two air streams have to be next to each other. Thus, it is permissible to call the air curtain PC the first air stream and the air curtain TC the second air stream. Since Roberts '767 discloses that the air curtain PC has a velocity of at least 200 fpm and the air curtain TC has a velocity of at least 300 fpm, the second discharge velocity is at least 1.4 times greater than the first discharge velocity.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
